

One Platform. Clear Visibility. Confident Control.

Titan TAP is Titan America's smart digital platform designed to simplify how ready-mix customers manage concrete orders and deliveries – bringing everything together in one place.

Whether you're planning upcoming pours or tracking deliveries in progress, Titan TAP gives you the visibility and control needed to keep projects moving efficiently.

What is Titan TAP?

Titan TAP is a centralized, self-service platform that connects order management, delivery tracking, and project visibility into a single, consistent experience.

It enables customers to manage day-to-day concrete operations with greater clarity – reducing uncertainty, minimizing manual coordination, and improving decision-making across the jobsite and office.

Why Titan TAP?

Less Phone Calls. More Productivity.

Reduce time spent calling dispatch and chasing updates – freeing your team to focus on the job.

Clear, Real-Time Visibility

Stay aligned with accurate, up-to-date information on orders, deliveries, and timing.

Better Control Across the Project Lifecycle

From order placement to delivery tracking, Titan TAP provides a consistent source of truth.

Designed for How You Work

Built to support both office teams and field operations with a simple, centralized experience.

What You Can Do with Titan TAP

Manage Orders with Confidence

- Place new ready-mix concrete orders
- Release scheduled orders
- Cancel orders (where applicable)
- View detailed order status at any time

Track Deliveries in Real Time

- Monitor delivery status and estimated arrival times
- Stay informed as conditions change
- Coordinate crews, equipment, and site readiness

Maintain Visibility Across Projects

- View current, upcoming, and past orders
- Track activity across multiple jobs
- Access order history when you need it
